Cybersmart Presentation for Parents/Carers

Young people today are immersed in digital technologies. They use the internet and mobile phones to socialise, study, exchange ideas and play. While online activity has many benefits, there are also risks.

To help your child stay safe online, Copperfield College is hosting a Cybersmart Outreach - Internet Safety Awareness presentation which will provided by the Australian Communications and Media Authority (ACMA). It is designed specifically for parents/carers and is free of charge.
